

Samia Melhem is the Global Lead for the Digital Development Community of Practice. Her operational responsibilities include investment operations in digital platforms & services as well as thought leadership on digital development. She has recently contributed to the Digital Development Partnership (DDP) setup, and is now leading the DDP's Digital government analytical work. She has led/contributed to digital government transformational projects in Rwanda, Egypt, Philippines, Burkina Faso, Kenya, Lebanon, Morocco, Guinea, Cote d'Ivoire - leveraging disruptive technologies to improve delivery of public services; such as education, health, and social protection. She is currently focusing on digital identification projects for regional integration and implementation of digital economy enablers.

In her previous assignments, Samia worked in several regions such as East and Central Europe, Middle East and Africa. She coordinated the Africa and Middle East digital development portfolio under the Sustainable Development Vice Presidency. She led production of knowledge toolkits on Digital government readiness assessments, electronic procurement, cloud computing, entrepreneurship & innovation, Telecoms Policy, Private Public Partnerships, Public Private partnership business models, and gender inclusion in high tech.

She holds degrees in Electrical Engineering (BS), Computer Sciences (MS), and Finance (MBA).
